Mémoire d'une terre gravée dans la pierre.
Destinée à complaire pour être votre pensionnaire.
Dans la lumière sa beauté n'est plus ordinaire.

**Observez-les... en silence elles vous racontent
toute leur sagesse singulière.**

Des Pierres sculptées par le temps,
préservées par la terre et **recueillies par l'Homme...**

Stones shaped by time,
preserved by Earth and **gathered by Man...**

The memory of earth carved in stone.
Intended to be a delightful denizen.
In the light its beauty is no longer ordinary.

**Observe them... In silence they speak
of their singular wisdom.**

As walking companions, accomplices of roamers, the stones will be the guides, along the edges of paths, alleys, low walls, milestones and markers.

Listen to them, they will whisper the way.

Compagnons de marche, complices des flâneurs, les pierres seront les guides, le long des bordures d'allées, des chemins, murets, bornes et repères.

Ecoutez-les, elles vous souffleront le chemin.

UrbanStone®

Nulle autre frontière pour la pierre
que la terre elle-même.

Nulle autre lisière que celle où elles reposent.

Elles patientent depuis la nuit des temps
pour votre seul ravissement.

No other boundary for the stone
than the earth itself.

No other border than where they rest.

They have been waiting since
the dawn of time for your delight.

The image shows a close-up of a stone staircase. The stones are layered and have a natural, weathered appearance with various shades of grey, brown, and tan. In the background, there are green plants, including a small pine tree and some flowering shrubs. On the left side, there is a dark red, textured rectangular overlay.

WaterStone®

La caresse de l'eau lisse la surface de la pierre, ravive les tons de la roche, éveille les sens par la fraîcheur et le frémissement des éléments.

Fermez les yeux, laissez-vous porter par les murmures de l'eau et de la roche, humez les fragrances humides et terreuses ravivées au contact de l'air.

The gentle caress of water smoothens the surface of the stone, revives the tones of the rock, awakens the senses with the freshness and quivering of the elements.

Close your eyes, let yourself be carried away by the murmurs of water and rock, smell the damp and earthy fragrances revived in contact with the air.

Plans d'eau, jardins, décoration,
paysages urbains et site d'entreprise :
des pierres pour rappeler à la mémoire
des badauds que la beauté de la nature
est telle qu'elle se présente là, à l'état brut,
issue de la terre et de la roche,
de la rencontre des éléments.

Laissez votre regard voguer alentours.
Percevez leur présence muette, originelle.

Water bodies, gardens, decoration,
urban landscapes and business grounds:
stones to remind onlookers that nature's
beauty is such that it presents itself there,
in its raw state, born of soil and rock,
where the elements meet.

Let your eyes wander around.
Perceive their silent, primordial presence.
